Dear friends and partners,

I hereby respectfully submit for your review a report summarizing the aviation activity at Ben - Gurion International Airport in August 2025.

This month saw the highest monthly and daily passenger volumes since October 7, 2023, with a peak of approximately 88,000 passengers in a single day.

That this was achieved barely a month after the war with Iran ended, when passenger traffic was at very low levels, makes the massive recovery all the more remarkable.

This increase is attributable to the airlines that resumed operations immediately after the campaign, the addition of flights to meet growing demand, and the highly challenging preparations carried out by Ben Gurion Airport employees, managers, and operational partners. Their efforts made it possible to deliver optimal service and operational precision, while upholding strict security standards and uncompromising safety.

During the month, a total of 2,265,324 passengers on 15,101 international and domestic flights passed through Ben- Gurion Airport.

International passenger traffic in August totaled 2,203,973 passengers representing an increase of 38.92% compared to August 2024.

International aircraft traffic totaled 14,601 flights, representing an increase of 31.12% compared to August 2024.

International passenger traffic at Terminal 3 this month totaled 2,072,420 passengers. Passengers on International flights from Terminal 1, serving departing passengers only, totaled 131,553.

On domestic flights 61,351 passengers passed through Ben- Gurion Airport this month, compared with 49,938 in August 2024, an increase of 22.85%.

Israeli airlines carried 1,351,853 passengers in this month, 61.33% of all travelers passing through Ben - Gurion Airport, an increase of 30.16% relative to the previous August.

The airlines which contributed the most to the increase of passenger traffic this month are: ARKIA ISRAELI AIRLINES, ISRAIR AIRLINES and BLUE BIRD AIRWAYS.

The Destination with the highest volume of activity was LARNACA with a total of 166,027 passengers to and from, an increase of 14.27% compared to the previous August.

The country with the highest volume of activity was GREECE, with 427,925 passengers, constituting 19.41% of all activity.

Of the leading countries, the highest growth relative to last August was recorded in passenger traffic to GREECE, UNITED STATES and UNITED ARAB EMIRATES.

Cargo transportation this month stood at 35,021 tons and reflects an increase of 24.49% compared to August 2024. 8,906 tons were transported in passenger aircraft and 26,115 tons in cargo aircraft. Below you will find additional tables providing details about movements of aircraft, passengers and cargo at Ben - Gurion International Airport.
